

TRIATHLON – Tatton Park.

Danny is taking part in his third Triathlon after his Dad had been diagnosed with malignant Mesothelioma.

Danny Parr had inspired his cousin Terry to take part in the triathlon at Tatton Park, Cheshire on 10th September. The triathlon was made up of 400m open water swim, a 10km bike ride, and a 2.5km run to finish off.

Ouchhhh that sounds tricky!!!

His cousin Terry has put in a lot of commitment and effort to do this! Terry is 42, and has lost almost 3 stone to get in to shape this summer.

After seeing Danny complete another triathlon last May it made Terry want to give it ago! No body actually believed that Terry would be committed to do this but he proved everybody wrong by completing this remarkable challenge!

A BIG WELL DONE FOR RAISING ALMOST £1000!!!!

You both have done so well and you are so lucky to have so many supporters and friends that helped you get through the triathlon.

Here are just a few comments from friends and family who have supported them.

Good luck son... Terry just ensure you finish!! Well done guys for the training to date, I will be cheering you on the day. So proud of you both xx

Go for it Dan and Terry we will be thinking of you on the day all the way from Bristol!!! Hope you have a great day...

To my darling husband Terry. U av made me so proud and when u finish there will be tears. Luv u xxx

WELL DONE - YOU BOTH HAVE DONE FANTASTIC!!!
