MESOTHELIOMA UK

If a Blue Light Walk isn't for you, there are many other ways you can light up blue...

Light up blue at home: Use blue fairy lights or blue lanterns to decorate your house and garden. You could also light a candle in a blue holder for an evening tribute.

Light up blue on your devices: Set phones, tablets, and other smart home devices to blue themes.

Blue decorations: Decorate areas in blue ribbon, balloons and bunting.

Go Blue Friday: Ask everyone at work to wear blue for the day - clothing and accessories!

Encourage local landmarks to light up blue: Head to our website to download our illumination request letter template.

Social Media assets: Use our social graphics, logos and images and share them across your own social media.

Tribute Wall: Share a message on our tribute wall to remember or support a loved one this Action Mesothelioma Day.
